

Certificate of Attendance

This is to certify that *Marcelo Kaihara* has participated to the **ELSI training day on Data protection and Big Data Research Ethics**, organized by the **ELSI Task Force** – an initiative of the National Research Programme “Big Data”.

Learning goals:

1. Basic concepts of data protection law, in particular informed consent, research exemption from informed consent, and data sharing
2. Basic concepts of research ethics with a focus on research on internet-collected data and research on health-related subjects
3. Know how: the trainee will learn to write a research abstract that will address the most important research ethics and data protection issues, that can pass ethics and data protection review, finding the most suitable solutions for conducting research and sharing data.

In Witness Whereof

Michele Loi (Ph.D.)

Manager of the ELSI Task Force NRP 75
